Country Report Cyprus 2015

Since last report not any outstanding changes happened in Cyprus. Except minister of health has changed any promised to continue the efforts for the reforms. He also wanted to express the commitment for the implementation of the general health insurance.

Now oncology hospital is almost coming to the end soon to be opened but not very clear Appearance about employing oncologist there. Which is a serious problem in the north of Cyprus.

Another important events in Cyprus is continuous harassment of the doctors in the media. Almost every day there are news about doctors and how they have made mistakes so and so forth. Most of the time information is either not complete or wrong but this is increasingly decreasing the trust of doctors from patients.

Environmental awareness of the medical association is still continuing. And the medical association is also increasing the awareness of health life activities like biking and sport.

Due to the loss of value of the Turkish liras the value of salaries gone down drastically.

Continuous efforts to establish an effective system of health has not yet come to the end resulting inefficiency of system at the same time neither the patients nor the doctors are happy.

Uncontrolled opening of medical and dental faculties will soon result excessive numbers of not properly trained doctors and dentist. This will increase the unhappiness of general public.
