Dear Dr. Enrico Reginato,

Following a decision taken by the executive committee of the Turkish Cypriot Physicians Union, on behalf of our organization we would like to apply to become a member of the FEMS.

**Turkish Cypriot Physicians Union (TCPU)**, established in 1977, is the only representative union of medical doctors and dentists working in public hospitals. Its objective is to improve salaries and wages, negotiate with the government, propose law changes, strike when necessary. TCPU has approximately 300 members, and represents all medical doctors and dentists working for the government in Northern Cyprus.

**Turkish Cypriot Physicians Union believes that all doctors around Europe must unite and defend doctors rights in fraternity. In these conditions we would like to be a part of FEMS.**

You can find additional attached files concerning TCPU activities in our country.

Your earliest respond and support regarding our application would be very much appreciated. Thank you for your kind attention.

Best regards,  
Dr.Sıla Usar İncirli  
President
