Title:	Questionnaire on the restriction of the trainee's liability for refund of expenses to maximum 24 months		
Author:	Ahmet Ozant		

Name of the Organisation/ Country:

1. Are doctors working in the state sector in your country allowed to go abroad for their specialty training?
2. Are they paid by the state during this training period? If so, is it their regular salary or salary + extra funding?
3. Are the doctors who receive specialty training in their own countries paid by the state?
4. In what kind of hospitals are doctors in your country able to receive specialty training? University hospitals, state hospitals, private hospitals?
5. After they have finished their training, do the doctors concerned have to pay the money back? If so, what proportion and over what period of time?
6. Are there any obligations after the period of funded training? A year of compulsory service? Repayment of funding?
7. In your opinion, should doctors repay money laid out by the state for their professional development?
8. Has there been litigation in your country in which doctors were sued over the funding issue? What kind of sanctions are given to doctors? Criminal sentence? Compensation payment? Deprivation of work in the state sector? Deprivation of license to work?
9. If there is no litigation against recipients of this kind of funding, why do you think this is so? Good lobbying by the doctors? It has never been an issue in your country? Legislation already in place precluding such litigation?

10. Any other comments?
