

EU COALITION FOR VACCINATION

Draft DECLARATION

We, the Members of the EU Coalition for Vaccination, commit to strengthen our efforts towards elimination of vaccine-preventable diseases.

Healthcare professionals and students, represented by Associations which are Members of the EU Coalition, commit to:

1. Work in collaboration with the national associations to deliver accurate and transparent information to our patients, to the student body, and the general public
2. Join efforts to increase confidence in vaccines and improve uptake of vaccination by citizens
3. Drive by example, vaccinating ourselves, to prevent dissemination of infectious diseases to our patients and publicly showing our confidence in vaccination
4. Combat myths and fake information related to vaccines, including via collaboration with media
5. Exchange good practices among countries, regions, settings and professions
6. Invest in education and communication and collaborate with peer organisations.
7. Make vaccination the easiest and obvious choice
