Additional comments:

The results of this survey will be presented during the FEMS/AEMH webinar on Friday 29 January 2021 starting at 9h

For the next common FEMS/AEMH General Assembly in May 2021 in Austria, we decided to compare the healthcare data of mortality in 2018, 2019 and 2020. Please take in account the variation of mortality of the other diseases, especially respiratory infectious diseases (influenza), according to more respected protection measures due to COVID-19 (hand washing, alcohol-based hand-sanitiser, distancing, kissing and hugging avoiding, mask).
